

# PRINT, DESIGN & SIGN

PROTECT YOUR SURFACES  
FROM  
**COVID-19** WITH  
COALA COVERSAFE™

# WHAT IS COALA COVERS SAFE?

In this challenging sanitary context, **PRINT, DESIGN & SIGN** want to provide our clients the best innovative solutions that can guarantee a safe environment and facilitate the successful continuation of their activities.

DOOR HANDLES

Coala Coversafe™ is a self-adhesive transparent film with outstanding antimicrobial properties that reduces the spread of viruses on surfaces due to its revolutionary patented technology incorporating mineral ceramic microspheres developed by the French company Pylote.

LIGHT SWITCHES

By exploiting the groundbreaking technological properties of mineral ceramic microspheres, Coala Coversafe™ offers 24/7 triple protection against viruses (including coronavirus 229E, seasonal flu and gastroenteritis), bacteria, yeast and molds.

Gergonne Industrie is the manufacturer of the Coala Coversafe™ self-adhesive solution incorporating this technology.

Suitable for a range of applications including light switches, door handles, handrails, desks, tables and counters, this revolutionary film allows for enhanced safety in public areas, workplaces and education facilities.

CLASS ROOMS

**OFFICE SPACE**

Thin, transparent and matt, this discreet protective self-adhesive film is completely natural and biocompatible and therefore poses no threat to contact with skin or food allowing it to be installed in an array of locations including canteen and catering areas and on a variety of surfaces.

- PVC-free, natural and safe for the skin

- Tested over 4 years, this revolutionary product perpetuates stable and permanent action over time without any loss of effectiveness.

- Quick installation with rapid action,removable without residue

- Discreet once applied (thin, transparent, matt)

- Easy to clean(soap, bleach, disinfectant) without degradation of the antimicrobial activity

- We can also print onto vinyl to get your message out there. And then laminate with Coala Coversafe™

**CANTEENS**

## PROTECTS AGAINST:

- Coronavirus
